===== NARRATIVE: =====

N JANUARY 18, 2016, AT APPROXIMATELY 0720 HOURS, SERGEANT DUSTIN ANDERSON WAS PRESENT ON HS-C-POD DROPPING OFFENDERS FOR OUTSIDE RECREATION. WHILE CONDUCTING A SECURITY CHECK, SERGEANT ANDERSON ARRIVED AT HS-C-210 CELL. OFFENDER GREGGS, JOE TDCJ 1877484 AS OBSERVED SITTING ON THE DESK STOOL, OFFENDER RODGERS, ALTON 1369028 AS OBSERVED LAYING ON THE TOP BUNK FACING AWAY FROM THE DOOR AND COVERED WITH A BLANKET. SERGEANT ANDERSON ATTEMPTED SEVERAL TIMES TO GET A RESPONSE FROM OFFENDER RODGERS TO NO AVAIL. OFFENDER GREGGS WAS REMOVED FROM THE CELL AND ESCORTED TO A HOLDING CELL. SERGEANT ANDERSON ENTERED THE CELL AND AGAIN ATTEMPTED TO GET A RESPONSE FROM OFFENDER RODGERS. OFFENDER RODGERS REMAINED UNRESPONSIVE AND THE INCIDENT COMMAND SYSTEM WAS INITIATED REQUESTING A BELLY BELT AND MEDICAL STAFF. RN MARIA CARRIZALES RESPONDED AND DETERMINED OFFENDER RODGERS WHO REMAINED UNRESPONSIVE, NEEDED TO BE ESCORTED VIA GURNEY TO THE UNIT INFIRMARY FOR FURTHER POSSIBLE TREATMENT. UPON ARRIVING IN THE UNIT INFIRMARY, MEDICAL STAFF EVALUATED THE OFFENDER AND DETERMINED OFFENDER RODGERS WOULD NEED TO BE TRANSPORTED BY AMBULANCE TO NORTHWEST TEXAS HOSPITAL IN AMARILLO TEXAS. OFFENDER RODGERS WAS TRANSPORTED BY AMBULANCE AND UPON ARRIVING AT NORTHWEST TEXAS HOSPITAL HE RECEIVED (1) INJECTION OF RADIOACTIVE MATERIAL TO MEASURE BLOOD FLOW TO THE BRAIN. OFFENDER RODGERS WAS ALSO PLACED ON A VENTILATION MACHINE AND GIVEN AN IV WHICH WILL BE USED TO PROVIDE FLUIDS AND NUTRIENTS TO OFFENDER RODGERS. DUTY WARDEN DARRELL ASH AND CAPTAIN WILBUR KEMPH WERE NOTIFIED. MR. TIMOTHY BURGE AT THE OFFICE OF THE INSPECTOR GENERAL WAS CONTACTED AT 0735 HOURS AND RESPONDED TO THE WILLIAM P. CLEMENTS JR UNIT. OFFENDER GREGGS WAS INTERVIEWED AND ADMITTED TO STRIKING OFFENDER RODGERS ONE TIME IN THE GYTH WHILE "SHADOW BOXING" APPROXIMATELY 3-4 DAYS AGO. NO OFFENDERS WILL BE CHARGED AT THIS TIME. MS. HOLLIS MURRAY AT THE EMERGENCY TENTION CENTER WAS CONTACTED AT 1554 HOURS AND ISSUED INCIDENT NUMBER --00858-01-16 AND STATED AN ADMINISTRATIVE REVIEW WOULD BE REQUIRED. ALL NECESSARY UNIT NOTIFICATIONS WERE MADE AND ANY FURTHER INFORMATION WILL BE SENT AS IT BECOMES AVAILABLE OR REQUESTED. OFFENDER RODGERS SUSTAINED (1) 1/5 INCH HEMATOMA TO HIS FOREHEAD. SUPERFICIAL ABRASION TO HIS RIGHT ELBOW AND SHOULDER AREA. MINOR ABRASION TO RIGHT SIDE OF FACE. MEDICAL STAFF ALSO NOTED A "BED SORE" ON THE LEFT SIDE OF HIS HIP. OFFENDER GREGGS WAS ALSO SCREENED BY MEDICAL STAFF. HE SUSTAINED AN ABRASION TO HIS RIGHT MIDDLE KNUCKLE AND SWELLING TO HIS RIGHT HAND.

INTER-OFFICE COMMUNICATIONS

TO: See Distribution

DATE: January 19, 2016

FROM: William Stephens
Director
Correctional Institutions Division

SUBJECT: Homicide – Clements Unit
Rodgers, Alton #1369028

On January 18, 2016, at approximately 0720 hours, in Expansion Cellblock/C-210 cell, security personnel observed Offender Gregg, Joe, TDCJ #1877484, B/M/40/G5, sitting on a stool while his cellmate, Offender Rodgers, Alton, TDCJ #1369028, B/M/31/G5, was lying on the top bunk unresponsive. Offender Gregg was restrained and removed from the cell. Offender Rodgers was escorted to the unit infirmary by gurney. Offender Rodgers was noted with swelling in the middle of his forehead, and his oxygen level and blood pressure were seriously low. Once stabilized, he was transported by ambulance to Northwest Texas Hospital in Amarillo, Texas. Tests conducted on offender Rodgers revealed serious head trauma, as well as multiple facial fractures, and he was admitted to the ICU. The Office of the Inspector General was notified. Offender Gregg was examined by unit medical and noted with a swollen hand that required no treatment. Upon being questioned, offender Gregg stated he struck offender Rodgers in the mouth.

On January 19, 2016, at 1215 hours, offender Rodgers was pronounced deceased by Dr. Galvan. Attempts to contact the next of kin are ongoing. A unit investigation is ongoing.

The TDCJ received Offender Gregg on September 16, 2013, from Trinity County to serve a twelve-year sentence for Assault, Family Violence, Strangulation.

Offender Rodgers is a confirmed 357 Gangster Crip Member. He was received on June 5, 2006, from Dallas County to serve a life sentence for Capital Murder.

TRANSPORT AUTHORIZATION FOR OFFENDER REMAINS**

The undersigned authorizes and directs the coordinating funeral home

and/or its said agents or staff to make the removal of the said remains of

ALTON RODGERS from B.I. CLEMENTS,
(Print Offender Name) (Print Unit/Location)

who died on 01-19-2016, and to hold until further notification
(Date of Death)

from the Warden of the unit with regards to the approval for an autopsy.

NOTE: If an offender death is determined to be from natural cause by a certified medical physician, the offender's family will be provided the opportunity to object to an autopsy.

Instructions: If death occurs on the unit the Warden shall sign this form authorizing the transport of the remains. If death occurs off the unit the Warden shall sign the form and shall deliver the form by the most expedient means to the appropriate medical staff at the location of the death.

AUTOPSY ORDER**

In accordance with Section 501.055 of the Government Code, the following Order shall serve as authorization to perform an autopsy on the body of the deceased offender identified below.

Offender Name: <u>ALTON RONGERS</u> <small>(Print Name)</small>	TDCJ #: <u>1369028</u>
Date of Birth: <u>[REDACTED]</u>	Race: <u>B</u> Sex: <input checked="" type="checkbox"/> Male <input type="checkbox"/> Female
Offender Pronounced dead at <u>1214 PM</u> <small>(Print time, include am or pm)</small>	on <u>19 JANUARY 2016</u> <small>(Print date, month, date, year)</small>
Location of Death: <input type="checkbox"/> Unit <u>[REDACTED]</u> <small>(Print Unit Name)</small>	<input checked="" type="checkbox"/> Other <u>NORTH WEST TEXAS Hospital</u> <small>(Print location, i.e. hospital name)</small>

Acting in my capacity as an authorized official of the Texas Department of Criminal Justice, I hereby order and decree that an autopsy be performed on the body of the above described offender. Said autopsy should be performed to determine the cause of death of the offender who died of natural causes while attended by a physician or registered nurse.

Said autopsy should include a determination of the cause of death and toxicological examinations of the urine, blood and other bodily matter as deemed necessary to determine types and amounts of alcohol or drugs if any are present in the body. I further order that said autopsy be performed by the UTMB Autopsy Service Physicians and/or associates.

It is understood that due care shall be taken to avoid unnecessary disfigurement of the body.

Further, said body shall be transported to TARRANT SQ ME (location of autopsy) by a representative or associate of CARNES Funeral Home, located in TEXAS CITY, Texas. Upon completion of the said autopsy, the body should be relinquished to a representative of the delivering funeral home who can be reached at (phone number) 1-888-822-7637, for transport.

Please forward copy of preliminary findings and reports to:

CUSTODIAL DEATH REPORT

For reporting requirements and procedure, see Section 39.05 of the Penal Code, Article 49.18(b) (c) of The Code of Criminal Procedure and Article 501.055(b) of The Government Code

Section 39.05 Failure to Report Death of Prisoner:

- (a) A person commits an offense if the person is required to conduct an investigation and file a report by Article 49.18, Code of Criminal Procedure, and the person fails to investigate the death, fails to file the report as required, or fails to include in a filed report facts known or discovered in the investigation.
- (b) A person commits an offense if the person is required by Section 501.055, Government Code, to:
 - (1) give notice of the death of an inmate and the person fails to give the notice; or
 - (2) conduct an investigation and file a report and the person:
 - (A) fails to conduct the investigation or file the report, or
 - (B) fails to include in the report facts known to the person or discovered by the person in the investigation.
- (c) An offense under this section is a Class B misdemeanor.

Article 49.18 (a) (b) (c). Death in Custody

- (a) If a person confined in a penal institution dies, the sheriff or other person in charge of the penal institution shall as soon as practicable inform the justice of the peace of the precinct where the penal institution is located of the death.
- (b) If a person dies while in the custody of a peace officer or as a result of a peace officer's use of force or if a person incarcerated in a jail, correctional facility, or state juvenile facility dies, the director of the law enforcement agency of which the officer is a member or of the facility in which the person was incarcerated shall investigate the death and file a written report of the cause of death with the attorney general no later than the 30th day after the date on which the person in custody or the incarcerated person died. The director shall make a good faith effort to obtain all facts relevant to the death and include those facts in the report. The attorney general shall make the report, with the exception of any portion of the report that the attorney general determined is privileged, available to any interested person.
- (c) Subsection (a) does not apply to a death that occurs in a facility operated by or under contract with the Texas Department of Criminal Justice. Subsection (b) does not apply to a death that occurs in a facility operated by or under contract with the Texas Department of Criminal Justice if the death occurs under circumstances described by Section 501.055 (b) (2), Government Code.
- (d) In this article:
 - (1) "Correctional facility" means a confinement facility or halfway house operated by or under contract with any division of the Texas Department of Criminal Justice.
 - (2) "In the custody of a peace officer" means:
 - (A) under arrest by a peace officer, or
 - (B) under the physical control or restraint of a peace officer.
 - (3) "State juvenile facility" means any facility or halfway house:
 - (A) operated by or under contract with the Texas Youth Commission or
 - (B) described by Section 51.02 (13) or (14), Family code.

- ☐ Appear intoxicated (either alcohol or drugs)
☐ Threaten the officer(s) involved?
☐ Resist being handcuffed or arrested ?
☐ Try to escape/flee from custody?
☐ Grab, hit or fight with the officer(s) involved?
☐ Use a weapon to threaten or assault the officer(s) Specify
☐ Other – specify
☒ Not applicable

19) WHERE DID THE DECEASED DIE?

- ☐ At law enforcement facility
☐ At the crime/arrest scene
☒ At medical facility
☐ En route to medical facility
☐ En route to booking center/police lookup
☐ Elsewhere – Specify:

20) WHAT WAS THE TIME AND DATE OF THE DECEASED'S ENTRY INTO THE LAW ENFORCEMENT FACILITY WHERE THE DEATH OCCURRED?

☐ N/A
 Month: June Day: 06 Year: 2006
 Time: Hour: _____ Min: _____ AM: ☐ PM: ☐

Revised 8/08 Replaces Form of 07/03/ which is obsolete
 CC-0287 (02/2008)

21) AT THE TIME OF ENTRY INTO THE FACILITY DID THE DECEASED: MARK ALL THAT APPLY

- ☐ Appear intoxicated (either alcohol or drugs)?
- ☐ Exhibit any mental health problems?
- ☐ Exhibit any medical problems?
- ☒ Not applicable

22) IF DEATH WAS AN ACCIDENT OR HOMICIDE, WHO CAUSED THE DEATH?

- ☐ Deceased
- ☒ Other detainees
- ☐ Law enforcement/correctional staff
- ☐ Other persons-specify
- ☐ Don't know
- ☐ Not applicable; cause of death was suicide, intoxication or illness/natural causes

23) IF DEATH WAS AN ACCIDENT, HOMICIDE OR SUICIDE, WHAT WAS THE MEANS OF DEATH?

- ☐ Firearm
- ☐ Blunt instrument
- ☐ Knife, cutting instrument
- ☐ Hanging, strangulation
- ☐ Drug overdose
- ☒ Other – specify Blount force trauma to the head by his head being slammed onto the concrete floor at least three times.
- ☐ Not applicable; cause of death was intoxication or illness/natural causes

24) ATTACH A SUMMARY OF HOW THE DEATH OCCURRED:

On January 18, 2016, at approximately 7:20 AM, Offender Rodgers was housed in Extended Cell Block, C-pod, cell #210. He was found unconscious, had vitals, and was bleeding from his mouth. Medical was notified, responded, and transported Offender Rodgers to the infirmary emergency room. An ambulance was summoned, arrived and took him to Northwest Texas Hospital. Scans were conducted and disclosed he had a fractured skull and multiple facial bone fractures. Investigation disclosed that his cellmate had physically assaulted him on approximately 1/14/2016, and on 1/17/2016, by picking him up and slamming his head onto the concrete floor causing the injuries.

On January 19, 2016, Hospital Dr. Dan Galvan pronounced him deceased at 12:14 PM.

NWTHS Consultation

A 31-year-old black male apparently found down at the prison this morning at 7:30. He was unresponsive at that time and has remained unresponsive. He was brought here where he is intubated and remains unresponsive. Pupils are fixed and dilated. He has no gag, no corneal, no response to command. His CT scan demonstrates an extremely large acute subdural hematoma, left side, with significant left to right shift.

IMPRESSION: Probable less likely herniation syndrome. This is a non-retrievable condition in my opinion. No surgical intervention is indicated. I would recommend supportive care and consultation with hospice or organ donation if his brain flow study is absent and shows no flow.

Diagnosis:

Emergency Department Care Team:

Provider: Galvan, Dan MD

The Emergency Department physician has reviewed the information that you have provided concerning medications that have been prescribed previously and found there to be no conflict with any therapy recommended by the Emergency Department physicians. Unless instructed by the Emergency Department physician to discontinue specific medications, you should continue medications prescribed by your regular doctor and follow-up with your doctor or with the physician/facility recommended by the ED as appropriate.

If you plan on operating a motor vehicle or using any dangerous equipment within the next several hours, please check with your physician or nurse to make sure that none of the medicines that you received in the Emergency Department could interfere with your performance of these tasks.

The physicians and staff of the Northwest Texas Healthcare System encourage you to lead a healthy lifestyle. If you smoke, we strongly urge you to quit. Contact your local American Lung Association for additional information.

Endotracheal intubation

Patient: RODGERS, ALTON MRN: NWT00751578 FIN: NWT0000090926403
Age: 31 years Sex: Male DOB: [REDACTED]
Associated Diagnoses: None
Author: Smith MD, Thomas E

Procedure

Endotracheal intubation

Time: 01/18/16 09:00:00 .
Confirmed: Patient, procedure, and site correct.
Consent: Emergent.
Indication: Respiratory failure.
Airway assessment: Mallampati class: III-soft palate, base of uvula.
Procedural sedation: None, Patient received ketamine enroute by EMS.
Monitoring: Cardiac, blood pressure, continuous pulse oximetry.
Preparation: Pre oxygenated, Inline stabilization of cervical spine maintained.
Technique: Oral intubation: A 7.5 ET tube was inserted, Glidescope.
Confirmation of tube placement: Bilateral chest rise, Positive color change indicated on end title CO2, Chest x-ray.
Post procedure exam: Equal breath sounds, No epigastric breath sounds.
Complications: None.
Performed by: Self.
Total time: 10 minutes.

Altered mental status

Patient: RODGERS, ALTON MRN: NWT00751578 FIN: NWT0000090926403
Age: 31 years Sex: Male DOB: [REDACTED]
Associated Diagnoses: None
Author: Smith MD, Thomas E

Basic Information

Time seen: Date & time 01/18/16 08:52:00, Provider Assignment
Smith MD, Thomas E assigned at 01/18/2016 08:52

History of Present Illness

The patient presents with altered mental status. Additional history: Per report the patient was found unconscious in his jail cell. He has chronic wounds and is emaciated from self starvation. There is a 1.5 cm round wound on the forehead with edema. Per EMS report his cellmate has a broken hand. Prison personnel were unable to give a time of last known normal mental status.

Review of Systems

Additional review of systems information: Unable to obtain due to: Clinical condition, altered mental status.

Disch: Disch Time:
FIN: NWT0000090926403

Emergency Department

There is a large left subdural hematoma overlying the entire left convexity and measuring up to 1.4 cm in thickness .

A small amount of subdural blood also extends along the falx and tentorium

There is severe mass effect with effacement of the left sulci, effacement of the left lateral ventricle and severe subfalcine herniation with midline shift to the right.

The
septum is shifted x 1.56 cm to the right
Basal cisterns are obliterated and the midbrain is distorted and compressed and there is
severe herniation of the left uncus transtentorially with associated severe
compression
of the midbrain.

Hypodensity of the midbrain pons and also of the anterior aspect of the left temporal ,
medial aspect of the left temporal lobe, inferior aspect of the left frontal lobe
aspect
and inferior aspect of the right frontal lobe is present likely due to infarction due
to
compromised blood flow secondary to severe transtentorial and severe subfalcine
herniation.

There is mild dilatation of the posterior horn and temporal horn of right lateral
ventricle secondary to compression of the right foramina of Monroe/ trapped ventricle

There is fracture the nasal bones
There may be fractures of the orbital floors .
Cannot exclude fractures of the lamina papyracea bilaterally
There is blood in the maxillary sinuses and ethmoid air cells.
There is soft tissue swelling of the right cheek

The mastoid air cells and middle ear cavities are well aerated.

IMPRESSION:

There is a large left subdural hematoma overlying the entire left convexity and measuring up to 1.4 cm in thickness .
A small amount of subdural blood also extends along the falx and tentorium

There is severe mass effect with effacement of the left sulci, effacement of the left lateral ventricle and severe subfalcine herniation with midline shift to the right.

Procedure

Critical care note

Critical care total time: 30-74 minutes spent engaged in work directly related to patient care and/ or available for direct patient care.

Critical condition(s) addressed for impending deterioration include: airway, respiratory, cardiovascular, central nervous system, metabolic, renal, hepatic.

Associated risk factors: hypotension, shock, hypoxia, bleeding, trauma, dysrhythmia, metabolic changes, dehydration, drug or med overdose.

Management: bedside assessment, supervision of care, Interpretation (chest x-ray, blood gases, electrocardiogram, blood pressure), Interventions (hemodynamic management, ventilator management, vascular access).

Performed by: self.

Addendum by Galvan, Dan MD on January 18, 2016 13:12:42 CST

I examined the patient and I concur with the history, physical, assessment and plan as outlined above by Mr. S. Harper, PA. We will be ordering a nuclear flow scan of the brain this afternoon as he appears clinically dead.

Dan A. Galvan, MD

Electronically Signed By: Galvan, Dan
 On: 01.18.2016 13:13 CST

Chief Complaint/Reason for Consultation

pt. arrived via EMS. Was found unconscious and unresponsive by his cellmate this morning at approximately 0700. EMS placed LMA. Pt arrived gcs 3. No pupil response. He is noted to have left hip wound that appears necrotic. He appears extremely cachectic.

History of Present Illness

Patient was subsequently intubated at time of arrival to protect his airway. Per report patient had been found unconscious and unresponsive by his cellmate at 0700 on today's date. Patient was subsequently transported North West Texas Hospital via ground EMS. Intubation attempt was made in the field but was unsuccessful and subsequently a LMA was placed for airway. Trauma surgery was consulted secondary to concern for possible traumatic mechanism. A time evaluation by trauma patient remains intubated and unresponsive. Accompanying guards state history as above. Guards unable to provide when patient was last seen awake and alert. Past medical history, past surgical history, social history, family history and review of systems unable to be obtained secondary to patient's intubated state and altered mental status. Per guards on patient had been known to be starving himself secondary to "trying to die".

History and Physical Reports

2. Dr. Wayne Paulus with neurosurgery has seen and evaluated patient in the trauma bay stating patient is not a candidate for acute neurosurgical intervention.
3. Analgesics will be administered as indicated.
4. We will proceed with nuclear medicine brain flow study to evaluate for cerebral blood flow.
5. Complications occult findings will be addressed as a present or declare themselves.
6. Patient's clinical course will be dictated by his response medical and surgical therapies.
7. Patient is currently incarcerated have advised guards to proceed with notification of family as this is a very poor prognosis.

CT Chest/Abdomen/Pelvis w/ Contrast: CT Chest/Abdomen/Pelvis w/ Contrast 01/18/2016 10:10

IMPRESSION: Trace pericardial effusion is present. There is pneumomediastinum. There is atelectasis/infiltrate of the posterior aspect of the left lower lobe and fluid is seen filling the bronchus supplying this segment suggesting aspiration. There is a small peripheral area of infiltrate in the right lower lobe. There is some tree in bud-like opacity in the posterior aspect of the right upper lobe suggesting aspiration. There is a large pulmonary embolus in the right interlobar pulmonary artery and extending also into the right lower lobe pulmonary arteries. There is also some pulmonary embolus in the right middle lobe pulmonary artery. A few bubbles of air anterior to the liver are probably in the extrapleural tissues of the anterior abdominal wall more likely than intra-abdominal and appear to be contiguous with the pneumomediastinum. The stomach is distended with air presumably with air insufflated during intubation. No acute intra-abdominal organ injury identified. There is a subacute healing fracture of the left eleventh rib posteriorly. No other fractures evident

CT Head or Brain w/o Contrast: CT Head or Brain w/o Contrast 01/18/2016 10:10

IMPRESSION: There is a large left subdural hematoma overlying the entire left convexity and measuring up to 1.4 cm in thickness. A small amount of subdural blood also extends along the falx and tentorium. There is severe mass effect with effacement of the left sulci, effacement of the left lateral ventricle and severe subfalcine herniation with midline shift to the right. The septum is shifted x 1.56 cm to the right. Basal cisterns are obliterated and the midbrain is distorted and compressed and there is severe herniation of the left uncus transtentorially with associated severe compression of the midbrain. Hypodensity of the midbrain pons and also of the anterior aspect of the left temporal, medial aspect of the left temporal

History and Physical Reports

lobe, inferior aspect of the left frontal lobe aspect and inferior aspect of the right frontal lobe is present likely due to infarction due to compromised blood flow secondary to severe transtentorial and severe subfalcine herniation. There is mild dilatation of the posterior horn and temporal horn of right lateral ventricle secondary to compression of the right foramina of Monroe/ trapped ventricle. There is fracture the nasal bones. There may be fractures of the orbital floors. Cannot exclude fractures of the lamina papyracea bilaterally. There is blood in the maxillary sinuses and ethmoid air cells. There is soft tissue swelling of the right cheek.

CT Maxillofacial w/o Contrast: CT Maxillofacial w/o Contrast 01/18/2016 10:10

IMPRESSION: 1. Bilateral fractures of the inferior wall and medial wall of the orbits. 2. There is a nasal bone fracture. Fractured nasal septum.

CT Spine Cervical w/o Contrast: CT Spine Cervical w/o Contrast 01/18/2016 10:10

IMPRESSION: No evidence of fracture, dislocation, or significant degenerative change of the cervical spine.

XR Chest 1 View Frontal: XR Chest 1 View Frontal 01/18/2016 09:01

IMPRESSION: Limited study. ET tube lies at the T2 level. It should be advanced 3 cm. Gastric distention with air

Operative Record

Indication

31 year old African American gentleman who was assaulted in prison and sustained severe head injury. He will need Arterial line for monitoring purposes as well as for blood draw.

Technique

Allen's test was done and noted patency of the arch. The area was scrubbed and prepped in sterile fashion. A French 20 radial A-line was placed using a Seldinger technique during first attempt and this was then hooked to monitor with good waveform. This was secured using Silk-0 and Tegaderm. No complications noted, sharps were disposed accordingly.

SIGN INFORMATION:

Harper PA, David Shane (1/18/2016 15:47 CST)

Procedure Name

Placement of left internal jugular central venous catheter by David Shane Harper, PA-C

Date of procedure; 1/18/2016

Consent

Verbal consent was obtained from accompanying prison guards

Indication

Need for central venous access in the setting of traumatic brain injury for monitoring of central venous pressure and medication administration.

Sedation

None

Technique

5 minute timeout was carried out by bedside RN verifying procedure indication and consent obtainment. Patient was laid in supine position the left lateral aspect of the neck was cleaned with chlorhexidine x1. Patient was cleaned with chlorhexidine x1 and then draped in common sterile fashion. Presumed insertion point was identified under ultrasound guidance and the left internal jugular vein was noted to be patent and appeared free of abnormality. Presumed insertion point was subsequently anesthetized with 3 cc of 1% lidocaine injected subcutaneously. After adequate time for anesthetic had taken effect introducer needle was placed into the left internal jugular vein with return of venous blood flow. Guidewire was placed through introducer needle into the vessel without difficulty. Introducer needle was removed over the guidewire. Small skin nick was then made at the insertion point with a #11 blade scalpel. Dilator was then placed over the guidewire and advanced to the insertion point, into the vessel and withdrawn without difficulty. Central venous catheter was placed over the guidewire and advanced to the insertion point into the vessel, and into position without difficulty. Guidewire removed to the distal port of the triple lumen catheter. All ports of the catheter flushed and flowed without difficulty. Catheter was then secured to the skin with #2 simple interrupted sutures placed laterally to the catheter hub. Catheter was furthermore secured with aid of Tegaderm dressing. Postprocedural chest x-ray reveals catheter in good position with no adverse findings noted. At the cessation of the procedure patient was left in the care of his bedside RN in unchanged condition. Estimated blood loss less than 1cc.

Nursing Note

Nursing Note : pt. arrived via EMS from Clemets unit. He was found unconscious and unresponsive at approximately 0700 hrs this morning. EMS attempted to intubate pt but was unsuccessful and they placed an LMA. An IO was placed in the left tibia by ems. EMS report they administered ketamine for sedation although pt had only minimal painful response according to EMS.

Dr. Smith at bedside intubating pt. RT at bedside. Prison guards questioned when the was the last time pt. was awake.

Guards called the prison and were unable to get any information regarding pts. last well known time.

Pt. appears very cachectic with skeletal bones very apparent thorough skin. He is cold to touch and his pupils are dried and non reactive. Pt. was trauma stripped and warm blakets and warm fluids were initiated. A Bair Hugger was applied to pt for warming measures.

Xray in room. 18 gauge left ac and 18gauge right ac initiated. Dr. Smith orders to administer 3 liters of NS.

0954 Susan Bailey RN called lifegift. #10225496.

Pt. is noted to have a hematoma to the mid forehead as well as some swelling and a small laceration to the left side just lateral to the left eye. Pt is noted to have what appears to be a pressure ulcer that is approximately 5 inches in circumference to the left hip area that appears necrotic and has a foul smelling yellow exudate draining.

Granados RN, Ricardo F. - 1/18/2016 11:53 CST

Physical Exam

General: Adult, African American Male, cachectic, emaciated appearing, intubated, ventilated
 Head: Normocephalic, small contusion noted about forehead- 1.5 cm in diameter
 ENT: Pupils 4 mm bilaterally, fixed and nonreactive, ETT/OGT in place, O/P MMM, External ears appear WNL
 Cardiac: S1S2 without m/r/g, PMI within normal limits, central and distal pulses intact
 Pulmonary: CTA bilaterally, equal expansion
 Abdomen: Soft, flat, nondistended, BS x4
 Musculoskeletal: No gross deformities, cachectic extremities x4
 Neurologic: No corneal reflex, no pupillary reflex, no cough reflex, no gag reflex, GCS 3T, no withdrawal to pain/stimuli
 Skin: Cool and dry to touch, 4 cm chronic wound noted about lateral aspect of left hip- no purulence present

Home Medications

traMADol 50 mg, Oral, qHS, 0 Refill(s)

Inpatient MedicationsMedications (11) Active

Scheduled: (3)

chlorhexidine 0.12% Liquid 15 mL 15 mL, Oral-Swish and SPIT, q12H

pantoprazole 40 mg vial 40 mg, IV Push, Daily

thiamine + Sodium Chloride 0.9% 50 mL 200 mg 2 mL, IV Piggyback, Daily

Continuous: (4)

norepinephrine 16 mg [1 mcg/min] + Sodium Chloride 0.9% 250 mL 250 mL, IV, 0.94 mL/hr

phenylephrine 50 mg [0.5 mcg/kg/min] + Sodium Chloride 0.9% 250 mL 250 mL, IV, 8.16 mL/hr

Sodium Chloride 0.9% 1,000 mL 1,000 mL, IV, 200 mL/hr

Sodium Chloride 3% 500 mL 500 mL, IV

PRN: (4)

fentaNYL 50 mcg/mL PF inj 2 mL 50 mcg 1 mL, IV Push, q1H Interval

midazolam 1 mg/mL PF inj 2mL 2 mg 2 mL, IV Push, q2H

Naloxone 0.4 mg/mL inj 1 mL 0.1 mg 0.25 mL, IV Push, q2Min Interval

ophthalmic lubricant Oint 1 app, OPTH, Daily

Tube Feedings

Product: Jevity 1.2
 Route: Orogastric Tube (OGT)
 Start Rate in mL/hr: 20
 Goal Rate _ mL/hr: 55
 Last Rate: 40 mL/hr

Consult(s)Other Consult

Dr. Wayne Paullus, Neurosurgery

Assessment/Plan**Diagnoses**

Acute respiratory failure (J96.00)
 Closed fracture nasal bone (S02.2XXA)
 Closed medial orbital wall fracture (S02.8XXA)
 Coagulopathy (D68.9)
 Fracture of inferior orbital wall (S02.3XXA)
 History of starvation (Z86.39)
 Pneumomediastinum (J98.2)
 Pulmonary embolism (I26.99)
 Subdural hematoma (I62.00)

Assessment: Nutrition: Jevity tube feeds

Analgesia: Fentanyl PRN
 Sedation: Versed PRN
 Thromboprophylaxis: SCDs
 HOB >30 degrees
 Ulcer Prophylaxis: Protonix
 Glucose control: BS appropriate at this time

Acute respiratory failure (J96.00): Secondary to head injury

Serial ABGs and adjustments as needed

Print Date/Time 1/19/2016 11:26 CST

Medical Record

Disch: Disch Time:
FIN: NWT0000090926403

Progress Notes

Closed fracture nasal bone (S02.2XXA): Closed nasal bone fractures per initial facial CT
No immediate surgical intervention needed at this time

Closed medial orbital wall fracture (S02.8XXA): Bilateral fractures of the medial wall of the orbits per initial facial CT
No immediate surgical intervention needed at this time

Coagulopathy (D68.9): Elevated INR on initial labs
Probably secondary to malnutrition

Fracture of inferior orbital wall (S02.3XXA): Closed fracture
Bilateral fractures of the inferior wall of the orbits per initial facial CT
No immediate surgical intervention needed at this time

History of starvation (Z86.39): Per report patient had been starving himself in prison

Pneumomediastinum (J98.2): Per initial chest CT
Serial exams

Pulmonary embolism (I26.99): Noted on initial chest CT
Right middle lobe pulmonary artery
Chemical thromboprophylaxis unable to be performed in setting of ICH

Subdural hematoma (I62.00): Left side
With midline shift and herniation per CT
Dr. Paullus, Neurosurgery consulted, no surgical intervention indicated at this time
Cerebral blood flow done 1-18-16- Flow present
Cerebral flow repeated on 1-19-16

Venous Thromboembolism (VTE) Prophylaxis: SCDs
* VTE Prophylaxis Assessment - Assessment Performed: Low

Discharge Planning: Discharge planning in place
Attending: Galvan

Electronically Signed By: Harper, David PA

Assessment/Plan**Diagnoses**

Acute respiratory failure (J96.00)
 Closed fracture nasal bone (S02.2XXA)
 Closed medial orbital wall fracture (S02.8XXA)
 Coagulopathy (D68.9)
 Fracture of inferior orbital wall (S02.3XXA)
 History of starvation (Z86.39)
 Pneumomediastinum (J98.2)
 Pulmonary embolism (I26.99)
 Subdural hematoma (Although there is brain flow on the cortical service the significant changes seen on the earlier CT scan encasing infarction of the midline structures indicated continued severe the poor prognosis From a neurosurgical standpoint still no surgical interventions indicated only supportive care I62.00)

Notification Form Entered On: 1/18/2016 23:04 CST
Performed On: 1/18/2016 21:00 CST by Campbell RN, Shelby

Provider Notify

Was Provider Notified : Yes

MD/MLP Notify Reason : Change in patient condition

Orders Received : No

MD/MLP Radiology Report Note : No changes made. Neurosurgery is aware and said to just keep checking the sodium level every four hours.

MD/MLP Notify Note : Notifying neurosurgery of critically high sodium of 166 and that IVF have been changed from LR to NS.

MD/MLP Provider Notified : Sappington NP, Amy

MD/MLP Date/Time of Notification : 1/18/2016 21:00 CST

Campbell RN, Shelby - 1/18/2016 23:02 CST

NWT- Northwest Texas Hospital

Patient: RODGERS, ALTON
MRN: NWT00751578
DOB/Sex: [REDACTED] / Male
Attending: Galvan, Dan MD

Admit: 1/18/2016

Provider Notify

Time Received Result Notification : 1/18/2016 19:44 CST
Was Provider Notified : Yes
MD/MLP Notify Reason : Critical Result
Critical Result : Lab
Orders Received : Yes
MD/MLP Radiology Report Note : Ordered 500mL bolus NS.
Result Reported : Sodium 166
MD/MLP Verify Radiology Readback : Read back results and verified with reporter
MD/MLP Notify Note : Patient's SBP is low in the 70's and 80's. Patient is on two vasopressor, levophed and neosynephrine, both at high doses. Patient's SVV is 20 and CVP is 1.
MD/MLP Provider Notified : Sbar MD, Alan

PLAN OF CARE - Outcome and goal reporting is not patient specific and is not a measure of any standard of care. Quality measure goals are guidelines that are not patient specific or a substitute for nursing or medical clinical judgment.

Nursing

Intervention: Participative in Fall Prevention **Expectation:** Yes
Result: Yes (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Plan: IPOC CLABSI

Phase Status: Initiated

History: Initiated at 1/18/2016 19:10 CST electronically signed by Nations RN, Meagan

Outcome: Absence of central venous catheter-associated bloodstream infection **Expectation:** Met

Result: Met (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Result: Met (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Outcome: Central Venous Catheter Insertion Review

Expectation: Acknowledged

Outcome: Central Line/PICC Insert Checklist

Expectation: New Insertion or Replace Malfunctioning Central Line or Suspected Central Line Associated Infection

Outcome: Central Venous Catheter Assessment Review

Expectation: Reviewed and interventions taken or Reviewed and no interventions required at this time

Outcome: Personal Care Provided - Infection Prevention

Expectation: Chlorhexidine bath

Result: Chlorhexidine bath (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Result: Bed bath, Electrodes replaced, Oral care, Partial linen change (Charted at 1/19/2016 03:15 CST by Campbell RN, Shelby)

Result: Oral care (Charted at 1/18/2016 23:30 CST by Campbell RN, Shelby)

Result: Oral care (Charted at 1/18/2016 19:15 CST by Campbell RN, Shelby)

Result: Chlorhexidine bath (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Outcome: Central Line Needs Assessment

Expectation: Administration of sclerosing agents or Alternative to repetitive venous cannulations or Central venous pressure measurement or Performance of hemodialysis or plasmapheresis or Placement of pulmonary w

Outcome: Central Venous Catheter Discontinuation Review

Expectation: Acknowledged

Intervention: Central Venous Catheter Management - Maintain catheter patency

Expectation: Done

Result: Done (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Result: Done (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Intervention: Central Venous Catheter Administration Set Management **Expectation:** Done

Result: Done (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Result: Done (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Intervention: Education, central venous catheter care

Expectation: Understanding evaluated or Validated using teachback

Intervention: Education, infection prevention

Expectation: Understanding evaluated or Validated using teachback

Print Date/Time 1/19/2016 11:26 CST

PLAN OF CARE - Outcome and goal reporting is not patient specific and is not a measure of any standard of care. Quality measure goals are guidelines that are not patient specific or a substitute for nursing or medical clinical judgment.

Nursing

Intervention: Central Venous Catheter Removal Site Care **Expectation:** Done

Result: Done (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Intervention: Education, central venous catheter removal **Expectation:** Understanding evaluated or Validated using teachback

Plan: IPOC CAUTI

Phase Status: Initiated

History: Initiated at 1/18/2016 19:10 CST electronically signed by Nations RN, Meagan

Outcome: Absence of urinary tract infection signs and symptoms **Expectation:** Met

Result: Met (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Result: Met (Charted at 1/18/2016 19:10 CST by Nations RN, Meagan)

Outcome: Urinary Catheter Needs Assessment

Expectation: Reviewed and patient meets criteria to discontinue catheter

Result: Reviewed and patient meets criteria for continued use of a catheter (Charted at 1/18/2016 19:10 CST by Nations RN, Meagan)

Outcome: Urinary Catheter Management Review

Expectation: Reviewed and interventions taken or Reviewed and no interventions required at this time

Outcome: Documented Reason for Indwelling Catheter Continuation

Expectation: Bladder therapy or Hemodynamic monitoring or Retention or Specimen collection or Pre-op/Intra-op or Measure residual urine volume or Strict I&O or Receiving diuretics or Skin integrity or Deliver radi

Outcome: Post Removal Retention Monitoring

Expectation: Reviewed and interventions taken or Reviewed and no interventions required at this time

Outcome: Bladder Scan

Expectation: Between 30 mL and 200 mL

Intervention: Education, urinary catheter care

Expectation: Understanding evaluated or Validated using teachback

Result: Needs further teaching (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Intervention: Education, urinary tract infection signs and symptoms

Expectation: Understanding evaluated or Validated using teachback

Result: Needs further teaching (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Plan: IPOC Ineffective Airway Clearance

Phase Status: Initiated

History: Initiated at 1/18/2016 19:10 CST electronically signed by Nations RN, Meagan

Outcome: Maintain/achieve clear and patent airway

Expectation: Met

Result: Met (Charted at 1/19/2016 04:47 CST by Campbell RN, Shelby)

Result: Met (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Outcome: Airway Assessment Review

Expectation: Reviewed and interventions taken or Reviewed and no interventions required at this time

Nursing

Intervention: Education, Optimal Breathing Technique **Expectation:** Understanding evaluated or Validated using teachback

Result: Needs further teaching (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Intervention: Education, aspiration prevention **Expectation:** Understanding evaluated or Validated using teachback

Result: Needs further teaching (Charted at 1/18/2016 19:11 CST by Nations RN, Meagan)

Plan: IPOC VAP Prevention

Phase Status: Initiated

History: Initiated at 1/19/2016 07:16 CST electronically signed by Sabbe RN, Jennifer M

Outcome: Absence of pulmonary infection

Expectation: Met

Outcome: Infection surveillance

Expectation: Sputum culture ordered and specimen collected

Outcome: VAP VTE Prophylaxis

Expectation: Mechanical or Pharmacological

Outcome: VAP Peptic Ulcer Prophylaxis

Expectation: Yes

Outcome: VAP Oral Care

Expectation: Mouth swab or Chlorhexidine mouth swab or Brushed teeth or Alcohol Free Mouthwash

Outcome: VAP Daily Sedation Interruption

Expectation: Performed

Outcome: Degrees Head of Bed Elevated

Expectation: Greater Than or Equal 30 degrees

Outcome: Sputum Assessment

Expectation: Clear or White or Cream or Light

Outcome: Mechanical Ventilator Weaning Readiness Assessment

Expectation: Yes

Outcome: Weaning Trial

Expectation: Meets criteria for extubation

Outcome: Communication to Physician

Expectation: Nursing or Pharmacy or Respiratory or Case Management or Dietary or Occupational Therapy or Physical Therapy or Social Services or Speech Therapy

Intervention: Education, mechanical ventilation weaning

Expectation: Understanding evaluated or Validated using teachback

Intervention: Education, Aspiration

Expectation: Understanding evaluated or Validated using teachback

Intervention: Cough Promotion

Expectation: Understanding evaluated or Validated using teachback

Intervention: Incentive spirometry promotion

Expectation: Understanding evaluated or Validated using teachback

Emergency

Plan: ED Altered Mental Status

Phase Status: Initiated

History: Initiated at 1/18/2016 09:00 CST electronically signed by Smith MD, Thomas E

Other Chemistry

Collected Date 1/18/2016

Collected Time 09:22 CST

Procedure	Units	Reference Range
Procalcitonin	3.870 ⁱ³ mcg/L	

Interp Data**i3: Procalcitonin**

Healthy Individual: Less than 0.075 mcg/L, Determination of normal values with a high sensitive assay revealed normal values to be below 0.075 mcg/L.

Less than 0.5 mcg/L: Systemic infection(sepsis) is not likely local bacterial infection is possible.

Greater than or equal to 0.5 - 2.0 mcg/L: Systemic infection(sepsis) is possible, but various conditions are known to induce procalcitonin as well.

Greater than or equal 2.0 - 10.0 mcg/L: Systemic infection(sepsis) is likely, unless other causes are known.

Greater than equal to 10.0 mcg/L: Important systemic inflammatory response, almost exclusively due to severe bacterial sepsis or septic shock.

PROCEDURE	EXAM DATE/TIME
CT Head or Brain w/o Contrast	1/18/2016 10:10 CST

REASON FOR EXAM

(CT Head or Brain w/o Contrast) Altered level of Consciousness

Report

Exam: CT Head or Brain w/o Contrast
 Accession#: 30-CT-16-001327

HISTORY altered consciousness

COMPARISON: None Available

FINDINGS: A noncontrast CT scan of the brain was performed.

There is a large left subdural hematoma overlying the entire left convexity and measuring up to 1.4 cm in thickness .

A small amount of subdural blood also extends along the falx and tentorium

There is severe mass effect with effacement of the left sulci, effacement of the left lateral ventricle and severe subfalcine herniation with midline shift to the right. The septum is shifted x 1.56 cm to the right

Basal cisterns are obliterated and the midbrain is distorted and compressed and there is severe herniation of the left uncus transtentorially with associated severe compression of the midbrain.

Imaging

PROCEDURE
CT Head or Brain w/o Contrast

EXAM DATE/TIME
1/18/2016 10:10 CST

Report

Hypodensity of the midbrain pons and also of the anterior aspect of the left temporal , medial aspect of the left temporal lobe, inferior aspect of the left frontal lobe aspect and inferior aspect of the right frontal lobe is present likely due to infarction due to compromised blood flow secondary to severe transtentorial and severe subfalcine herniation.

There is mild dilatation of the posterior horn and temporal horn of right lateral ventricle secondary to compression of the right foramina of Monroe/ trapped ventricle

There is fracture the nasal bones
There may be fractures of the orbital floors .
Cannot exclude fractures of the lamina papyracea bilaterally
There is blood in the maxillary sinuses and ethmoid air cells.
There is soft tissue swelling of the right cheek

The mastoid air cells and middle ear cavities are well aerated.

IMPRESSION:

There is a large left subdural hematoma overlying the entire left convexity and measuring up to 1.4 cm in thickness .
A small amount of subdural blood also extends along the falx and tentorium

There is severe mass effect with effacement of the left sulci, effacement of the left lateral ventricle and severe subfalcine herniation with midline shift to the right. The septum is shifted x 1.56 cm to the right
Basal cisterns are obliterated and the midbrain is distorted and compressed and there is severe herniation of the left uncus transtentorially with associated severe compression of the midbrain.

Hypodensity of the midbrain pons and also of the anterior aspect of the left temporal , medial aspect of the left temporal lobe, inferior aspect of the left frontal lobe aspect and inferior aspect of the right frontal lobe is present likely due to infarction due to compromised blood flow secondary to severe transtentorial and severe subfalcine herniation.

There is mild dilatation of the posterior horn and temporal horn of right lateral ventricle secondary to compression of the right foramina of Monroe/ trapped ventricle

There is fracture the nasal bones
There may be fractures of the orbital floors .
Cannot exclude fractures of the lamina papyracea bilaterally
There is blood in the maxillary sinuses and ethmoid air cells.
There is soft tissue swelling of the right cheek

PROCEDURE

CT Chest/Abdomen/Pelvis w/ Contrast

EXAM DATE/TIME

1/18/2016 10:10 CST

REASON FOR EXAM

(CT Chest/Abdomen/Pelvis w/ Contrast) Head Trauma;Other (Please Specify)

Report

Exam: CT Chest/Abdomen/Pelvis w/ Con
Accession#: 30-CT-16-001334

HISTORY: acute trauma

COMPARISON: None Available

FINDINGS: post contrast CT scan of the chest abdomen and pelvis was performed with reformatting in sagittal and coronal planes
The patient is intubated
Trace pericardial effusion is present
There is no evidence of mediastinal hematoma or mediastinal vascular injury
There is pneumomediastinum
There is atelectasis/infiltrate of the posterior aspect of the left lower lobe and fluid is seen filling the bronchus supplying this segment suggesting aspiration
There is a small peripheral area of infiltrate in the right lower lobe

Print Date/Time 1/19/2016 11:26 CST

PROCEDURE
CT Chest/Abdomen/Pelvis w/ Contrast

EXAM DATE/TIME
1/18/2016 10:10 CST

Report

There is some tree in bud-like opacity in the posterior aspect of the right upper lobe suggesting aspiration

There is a large pulmonary embolus in the right interlobar pulmonary artery and extending also into the right lower lobe pulmonary arteries . There is also some pulmonary embolus in the right middle lobe pulmonary artery

A few bubbles of air anterior to the liver are probably in the extrapleural tissues of the anterior abdominal wall more likely than intra-abdominal and appear to be contiguous with the pneumomediastinum

The stomach is distended with air preesumably with air insufflated during intubation.

The liver, spleen, pancreas, gallbladder, and adrenal glands are normal. The kidneys are normal. There is no free intraabdominal air or fluid. The bowel pattern is nonobstructive. I do not see any gross bowel abnormalities. The bladder is unremarkable and contains a Foley catheter.

There is a subacute healing fracture of the left eleventh rib posteriorly.

No other fractures evident

IMPRESSION:

Trace pericardial effusion is present

There is pneumomediastinum

There is atelectasis/infiltrate of the posterior aspect of the left lower lobe and fluid is seen filling the bronchus supplying this segment suggesting aspiration

There is a small peripheral area of infiltrate in the right lower lobe

There is some tree in bud-like opacity in the posterior aspect of the right upper lobe suggesting aspiration

There is a large pulmonary embolus in the right interlobar pulmonary artery and extending also into the right lower lobe pulmonary arteries . There is also some pulmonary embolus in the right middle lobe pulmonary artery

A few bubbles of air anterior to the liver are probably in the extrapleural tissues of the anterior abdominal wall more likely than intra-abdominal and appear to be contiguous with the pneumomediastinum

The stomach is distended with air preesumably with air insufflated during intubation.

No acute intra-abdominal organ injury identified

There is a subacute healing fracture of the left eleventh rib posteriorly.

No other fractures evident

Called to Dr. Smith at approximately 11:30 a.m. on 1/18/16

PROCEDURE
CT Maxillofacial w/o Contrast

EXAM DATE/TIME
1/18/2016 10:10 CST

REASON FOR EXAM

(CT Maxillofacial w/o Contrast) Altered level of Consciousness

Report

Exam: CT Maxillofacial w/o Contrast
Accession#: 30-CT-16-001333

Multiplanar images of the facial bones was performed.

There is a fracture the nasal bone. Is also a minimal displaced fracture nasal septum best seen on transaxial images 46 and 47 and coronal reformatted images 29 and 30. There is a fracture the right orbit with 7 mm inferior displacement of the orbital floor. There is no evidence of entrapment of the inferior rectus. Orbital fat is displaced into the right maxillary sinus. There's hemorrhage the left maxillary sinus.

There is also fracture of the right orbital floor with also approximately 7 mm displacement of the right orbital floor into the maxillary sinus. No displacement of the inferior rectus into the maxillary sinus. There is right maxillary hemorrhage. Note: There are also fractures of the medial wall of the right and left orbit with displacement of the left medial wall of the orbit fracture into the ethmoid sinuses approximately 3 mm.

There is no significant hemorrhage in this sphenoid sinus. There is no evidence of fracture the Petrous pyramid. There is no fracture nasal the zygomatic arch. There is no fracture the pterygoid plates or mandible fracture on this examination.

There is emphysema neck soft tissues bilaterally right greater than left. The patient is intubated. Hemorrhage identified in the posterior nasopharynx.

IMPRESSION:

Report

Exam: XR Chest 1 View Frontal
Accession#: 30-XR-16-002520

COMPARISON: None.

The stomach is distended with gas. Decompression is recommended.

Endotracheal tube lies the T2 level and should be advanced at least 3 cm.

There is subcutaneous emphysema in the right. This lies at the base the right neck and the right chest wall. Allowing for this, no clear-cut evidence of pneumothorax on this examination. Chest wall soft tissue overlies the right apex. No clear-cut large pulmonary artery disease allowing for limitations.

IMPRESSION: Limited study. ET tube lies at the T2 level. It should be advanced 3 cm. Gastric distention with air

COMPARISON: Study at 8:52 a.m.

The ET tube has been advanced slightly and now lies just above the clavicular head level. Left perihilar infiltrate is noted. Rule out pneumonia or atelectasis or both. The nasogastric tube has been inserted and the stomach has been decompressed.

Left IJ catheter was inserted. The tip lies in expected position the upper SVC.

IMPRESSION: life-support devices as above. Left perihilar infiltrate has become apparent.

REASON FOR EXAM
(NM Brain Imaging Comp w/ Vascular Flow) SDH; Other (Please Specify)

Report

Exam: NM Brain Imaging Comp w/ Vascul
Accession#: 30-NM-16-000100

WORKING CLINICAL DIAGNOSIS: Intracranial hemorrhage, evaluation for brain death.

RADIOPHARMACEUTICAL: The patient received 30 mCi of technetium 99m Ceretec and a flow study is obtained followed by immediate static images.

FINDINGS: The initial injection infiltrated and thus a second injection is performed. The serial images demonstrate existing activity within the cranial cavity. The flow study shows flow of the radiotracer within both hemispheres with the exception of an irregular posterior defect. Immediate static images demonstrate activity in both cerebral hemispheres again with the left posterior defect and some irregularity seen in both cortices. There is a significant shift from the left to the right seen in the immediate static images.

IMPRESSION:

1. Blood flow is present within both cerebral hemispheres.
2. A large posterior left cortical defect is present as well as smaller random irregularities seen bilaterally.
3. There is significant shift of the cortex from the left to the right consistent with a subdural hematoma.

Procedure	Recorded Date Recorded Time Recorded By	1/19/2016 08:19 CST Diaz CRT, Manuel F	1/19/2016 07:45 CST Nations RN, Meagan
Artificial Airway Type		Endotracheal tube	-
Ventilator Mode		See Below T27	-
Ventilator Frequency, Mandatory		15	-
Tidal Volume, Delivered		500	-
Positive End Expiratory Pressure		5	-
Sensitivity/Trigger		Flow Trigger	-
Inspiratory to Expiratory Ratio		1:5	-
Inspiratory Time		1.32	-
Inspiratory Time %		33	-
Ventilator ID		2955	-
Resuscitation Bag and Mask Available		Yes	-
Suction Device Available		Yes	-
Respiratory Rate Total		15	-
Respiratory Rate, Spontaneous		0 ^L	-
Tidal Volume, Exhaled		485	-
Minute Volume, exhaled		7.3	-
Plateau Pressure		14	-
End Expiratory Pressure		5	-
Auto-PEEP		0	-
Compliance, Static		35.714	-
Compliance, Dynamic		35.714	-
Ventilator charges		VENTILATOR MGMT SUB DAY	-
Peak Inspiratory Pressure Measured		14	-
Mean Airway Pressure Measured		8.3	-
Vent Alarms On and Functional		Yes	-
Vent Alarm Apnea		20	-
Vent Alarm High Pressure		50	-
Vent Alarm Low Pressure		10	-
Vent Alarm High Rate		40	-
Vent Alarm Low Rate		8	-
Vent Alarm High Minute Volume		18	-
Vent Alarm Low Minute Volume		2	-
Vent Alarm High Tidal Volume		1000	-
Vent Alarm Low Tidal Volume		250	-
SpO2		100	100
Humidification		Warm	-
Humidifier Water Level		1/2	-
Humidification Temperature		35.1	-
Patient Position		Semi-Fowler's	-
Cuffed endotracheal tube 7.5			-
Endotracheal Tube Activity		Assess	-
Endotracheal Tube Insertion Distance		26	-

 FIN: NWT0000090926403

Assessments and Treatments

Textual Results

- T4: 1/19/2016 03:15 CST (Cardiovascular Defined Assessment)
 Capillary refill less than 3 seconds, Clear S1 and S2, Nail beds pink, No clubbing, No edema, No murmur or gallop, Peripheral pulses 2+
- T9: 1/19/2016 03:15 CST (CV Additional Parameters Monitored)
 Pulses, Rhythm analysis/Telemetry
- T15: 1/19/2016 03:15 CST (Respiratory Defined Assessment)
 Clear breath sounds all fields, No cough, No secretions, Respirations regular rate and rhythm, Respirations unlabored, Symmetric chest movement
- T20: 1/19/2016 03:15 CST (Resp Additional Parameters Monitored)
 Artificial airway, Suction, VAP bundle, Ventilator settings
- T29: 1/19/2016 03:15 CST (Ventilator Mode)
 APV-CMV (Adaptive Pressure Ventilation- Continuous Mandatory
- T38: 1/19/2016 03:15 CST (VAP Oral Care)
 Mouth swab, Chlorhexidine mouth swab, Brushed teeth
- T41: 1/19/2016 03:15 CST (GI Symptoms)
 Abdomen description finding, Bowel sounds finding
- T46: 1/19/2016 03:15 CST (Gastrointestinal Defined Assessment)
 No diarrhea, No nausea/vomiting, Non-tender abdomen, Passing flatus, Soft, non-distended abdomen
- T49: 1/19/2016 03:15 CST (Genitourinary Defined Assessment)
 Adequate urine output, Bladder not distended, Clear urine, Continent, Non odorous urine
- T56: 1/19/2016 03:15 CST (Musculoskeletal Defined Assessment)
 No amputations, No contractures, deformities, No swelling, Normal range of motion
- T61: 1/19/2016 03:15 CST (Integumentary Defined Assessment)
 Skin color normal for ethnicity, Skin warm and dry, Elastic skin turgor, Oral mucosa (or mucous membranes) pink, moist, intact
- T69: 1/19/2016 03:15 CST (Neurological Symptoms)
 Affect/Behavior not appropriate, Altered LOC
- T82: 1/19/2016 03:15 CST (Neuro Additional Parameters Monitored)
 Glasgow coma assessment, Pupils assessment
- T98: 1/19/2016 03:15 CST (CN VII Facial Expression and Symmetry)
 No Facial movement with nasal passage light touch
- T108: 1/19/2016 03:15 CST (Environmental Safety Implemented)
 Bed in low position, Side rails up, Wheels locked when available
- T111: 1/19/2016 03:15 CST (Activity Status ADL)
 Complete bedrest, Reposition every 2 hours
- T114: 1/19/2016 03:15 CST (Antiembolism Device)
 Intermittent pneumatic compression devices, knee high
- T117: 1/19/2016 03:15 CST (Personal Care Provided)
 Bed bath, Electrodes replaced, Oral care, Partial linen change
- T118: 1/19/2016 03:15 CST (Function and Safety Documentation)
 Activity, Devices, Hygiene, Safety checks additional
- T122: 1/19/2016 03:15 CST (Urinary Catheter Indications)
 Accurate I & O in critically ill patient
- T128: 1/19/2016 03:15 CST (Incision, Wound Description:)
 Edges separated, Gaping, Full thickness
- T133: 1/19/2016 03:15 CST (Central IV Indication:)
 Administration of medications or blood products
- T137: 1/19/2016 03:15 CST (Central IV Dressing:)

Print Date/Time 1/19/2016 11:26 CST

<i>Assessments and Treatments</i>

Textual Results

T137: 1/19/2016 03:15 CST (Central IV Dressing:)
 Intact, Antimicrobial patch, Dry, Transparent
 T142: 1/19/2016 03:15 CST (Central IV CVP Line Care:)
 Dynamic response test performed, Leveled, zeroed, calibrated, Pressure device 300 mmHg
 T147: 1/19/2016 03:15 CST (Arterial Line Care:)
 Dynamic response test, Leveled, zeroed, calibrated, Pressure device 300 mmHg

Gastric Tube Method of Drainage	Clamped	-	
Gastric Tube Placement Confirmation	Auscultation, X-Ray	-	
Gastric Tube Procedure and Care	Feed c3	-	
Enteral Tube Position Marking	33	-	
Skin Condition Related to Enteral Tube	Intact, no abnormalities	-	
Enteral/Gastric Feed Supplement/Product	Jevity 1.2	-	
Enteral/Gastric Tube Feed Rate	20	-	
Enteral/Gastric Tube Feed Mode	Continuous	-	

Textual Results

- T5: 1/18/2016 23:30 CST (Cardiovascular Defined Assessment)
 Capillary refill less than 3 seconds, Clear S1 and S2, Nail beds pink, No clubbing, No edema, No murmur or gallop, Peripheral pulses 2+
- T10: 1/18/2016 23:30 CST (CV Additional Parameters Monitored)
 Pulses, Rhythm analysis/Telemetry
- T16: 1/18/2016 23:30 CST (Respiratory Defined Assessment)
 Clear breath sounds all fields, No cough, No secretions, Respirations regular rate and rhythm, Respirations unlabored, Symmetric chest movement
- T21: 1/18/2016 23:30 CST (Resp Additional Parameters Monitored)
 Artificial airway, Suction, VAP bundle, Ventilator settings
- T31: 1/18/2016 23:30 CST (Ventilator Mode)
 APV-CMV (Adaptive Pressure Ventilation- Continuous Mandatory
- T39: 1/18/2016 23:30 CST (VAP Oral Care)
 Mouth swab, Chlorhexidine mouth swab, Brushed teeth
- T42: 1/18/2016 23:30 CST (GI Symptoms)
 Abdomen description finding, Bowel sounds finding
- T47: 1/18/2016 23:30 CST (Gastrointestinal Defined Assessment)
 No diarrhea, No nausea/vomiting, Non-tender abdomen, Passing flatus, Soft, non-distended abdomen
- T50: 1/18/2016 23:30 CST (Genitourinary Defined Assessment)
 Adequate urine output, Bladder not distended, Clear urine, Continent, Non odorous urine

<i>Assessments and Treatments</i>

Textual Results

T57: 1/18/2016 23:30 CST (Musculoskeletal Defined Assessment)
 No amputations, No contractures, deformities, No swelling, Normal range of motion

T62: 1/18/2016 23:30 CST (Integumentary Defined Assessment)
 Skin color normal for ethnicity, Skin warm and dry, Elastic skin turgor, Oral mucosa (or mucous membranes) pink, moist, intact

T73: 1/18/2016 23:30 CST (Neurological Symptoms)
 Affect/Behavior not appropriate, Altered LOC

T86: 1/18/2016 23:30 CST (Neuro Additional Parameters Monitored)
 Glasgow coma assessment, Pupils assessment

T102: 1/18/2016 23:30 CST (CN VII Facial Expression and Symmetry)
 No Facial movement with nasal passage light touch

T109: 1/18/2016 23:30 CST (Environmental Safety Implemented)
 Bed in low position, Side rails up, Wheels locked when available

T112: 1/18/2016 23:30 CST (Activity Status ADL)
 Complete bedrest, Reposition every 2 hours

T115: 1/18/2016 23:30 CST (Antiembolism Device)
 Intermittent pneumatic compression devices, knee high

T119: 1/18/2016 23:30 CST (Function and Safety Documentation)
 Activity, Devices, Hygiene, Safety checks additional

T123: 1/18/2016 23:30 CST (Urinary Catheter Indications)
 Accurate I & O in critically ill patient

T129: 1/18/2016 23:30 CST (Incision, Wound Description:)
 Edges separated, Gaping, Full thickness

T134: 1/18/2016 23:30 CST (Central IV Indication:)
 Administration of medications or blood products

T138: 1/18/2016 23:30 CST (Central IV Dressing:)
 Intact, Antimicrobial patch, Dry, Transparent

T143: 1/18/2016 23:30 CST (Central IV CVP Line Care:)
 Dynamic response test performed, Leveled, zeroed, calibrated, Pressure device 300 mmHg

T148: 1/18/2016 23:30 CST (Arterial Line Care:)
 Dynamic response test, Leveled, zeroed, calibrated, Pressure device 300 mmHg

<i>Assessments and Treatments</i>

Textual Results

- T17: 1/18/2016 19:15 CST (Respiratory Defined Assessment)
 Clear breath sounds all fields, No cough, No secretions, Respirations regular rate and rhythm, Respirations unlabored, Symmetric chest movement
- T22: 1/18/2016 19:15 CST (Resp Additional Parameters Monitored)
 Artificial airway, Suction, VAP bundle, Ventilator settings
- T33: 1/18/2016 19:15 CST (Ventilator Mode)
 APV-CMV (Adaptive Pressure Ventilation- Continuous Mandatory
- T40: 1/18/2016 19:15 CST (VAP Oral Care)
 Mouth swab, Chlorhexidine mouth swab, Brushed teeth
- T43: 1/18/2016 19:15 CST (GI Symptoms)
 Abdomen description finding, Bowel sounds finding
- T48: 1/18/2016 19:15 CST (Gastrointestinal Defined Assessment)
 No diarrhea, No nausea/vomiting, Non-tender abdomen, Passing flatus, Soft, non-distended abdomen
- T51: 1/18/2016 19:15 CST (Genitourinary Defined Assessment)
 Adequate urine output, Bladder not distended, Clear urine, Continent, Non odorous urine
- T58: 1/18/2016 19:15 CST (Musculoskeletal Defined Assessment)
 No amputations, No contractures, deformities, No swelling, Normal range of motion
- T63: 1/18/2016 19:15 CST (Integumentary Defined Assessment)
 Skin color normal for ethnicity, Skin warm and dry, Elastic skin turgor, Oral mucosa (or mucous membranes) pink, moist, intact
- T77: 1/18/2016 19:15 CST (Neurological Symptoms)
 Affect/Behavior not appropriate, Altered LOC
- T90: 1/18/2016 19:15 CST (Neuro Additional Parameters Monitored)
 Glasgow coma assessment, Pupils assessment
- T106: 1/18/2016 19:15 CST (CN VII Facial Expression and Symmetry)
 No Facial movement with nasal passage light touch
- T110: 1/18/2016 19:15 CST (Environmental Safety Implemented)
 Bed in low position, Side rails up, Wheels locked when available
- T113: 1/18/2016 19:15 CST (Activity Status ADL)
 Complete bedrest, Reposition every 2 hours
- T116: 1/18/2016 19:15 CST (Antiembolism Device)
 Intermittent pneumatic compression devices, knee high
- T120: 1/18/2016 19:15 CST (Function and Safety Documentation)
 Activity, Devices, Hygiene, Safety checks additional
- T124: 1/18/2016 19:15 CST (Urinary Catheter Indications)
 Accurate I & O in critically ill patient
- T130: 1/18/2016 19:15 CST (Incision, Wound Description:)
 Edges separated, Gaping, Full thickness
- T135: 1/18/2016 19:15 CST (Central IV Indication:)
 Administration of medications or blood products
- T139: 1/18/2016 19:15 CST (Central IV Dressing:)
 Intact, Antimicrobial patch, Dry, Transparent
- T144: 1/18/2016 19:15 CST (Central IV CVP Line Care:)
 Dynamic response test performed, Leveled, zeroed, calibrated, Pressure device 300 mmHg
- T149: 1/18/2016 19:15 CST (Arterial Line Care:)
 Dynamic response test, Leveled, zeroed, calibrated, Pressure device 300 mmHg

Textual Results

T136: 1/18/2016 18:25 CST (Central IV Indication:)
 Administration of medications or blood products, Poor peripheral access, Hemodynamic monitoring

T140: 1/18/2016 18:25 CST (Central IV Dressing:)
 Intact, Antimicrobial patch, Dry, Transparent

T141: 1/18/2016 18:25 CST (Central IV Care:)
 Cap(s) changed, Flush with Normal Saline, Line/Fluid reconciliation

T145: 1/18/2016 18:25 CST (Central IV CVP Line Care:)
 Correct catheter position confirmed, Connections secured, Dynamic response test performed, Leveled, zeroed, calibrated, Pressure device 300 mmHg

T146: 1/18/2016 18:25 CST (Arterial Line Status:)
 Accurate, optimally damped, Correlates with manual

T150: 1/18/2016 18:25 CST (Arterial Line Care:)
 Leveled, zeroed, calibrated, Pressure device 300 mmHg

Textual Results

T3: 1/18/2016 12:26 CST (HEENT Defined Assessment)
 No eye, nose, or ear deformity, Tongue pink, intact

T8: 1/18/2016 12:26 CST (Cardiovascular Defined Assessment)
 Capillary refill less than 3 seconds, Clear S1 and S2, Nail beds pink, No clubbing, No edema, No murmur or gallop, Peripheral pulses 2+, Tolerates activity

T13: 1/18/2016 12:26 CST (CV Additional Parameters Monitored)
 Pulses, Rhythm analysis/Telemetry

T19: 1/18/2016 12:26 CST (Respiratory Defined Assessment)
 Clear breath sounds all fields, No cough, No secretions, Respirations regular rate and rhythm, Respirations unlabored, Symmetric chest movement

T45: 1/18/2016 12:26 CST (GI Symptoms)
 Abdomen description finding, Abdomen palpation finding, Bowel sounds finding

T53: 1/18/2016 12:26 CST (Genitourinary Defined Assessment)
 Adequate urine output, Bladder not distended, Clear urine, Continent, Non odorous urine

T60: 1/18/2016 12:26 CST (Musculoskeletal Defined Assessment)

Print Date/Time 1/19/2016 11:26 CST

<i>Assessments and Treatments</i>

Textual Results

T60: 1/18/2016 12:26 CST (Musculoskeletal Defined Assessment)
 No amputations, No contractures, deformities, No swelling, Normal range of motion
 T65: 1/18/2016 12:26 CST (Integumentary Defined Assessment)
 Skin color normal for ethnicity, Elastic skin turgor
 T92: 1/18/2016 12:26 CST (Neuro Additional Parameters Monitored)
 Cranial nerve assessment, Glasgow coma assessment, Pupils assessment, Tone and strength
 T94: 1/18/2016 12:26 CST (Best Motor Response Glasgow)
 Flexes and withdraws to painful stimuli
 T126: 1/18/2016 12:26 CST (Urinary Catheter Indications)
 Accurate I & O in critically ill patient
 T132: 1/18/2016 12:26 CST (Incision, Wound Description:)
 Edges separated, Gaping, Full thickness

CONSENT TO SEARCH ~~EMPLOYEE~~ RWK
PERSON

I, Joe Gregg 1877484 on the 18 day of JAN., 2016
 have been requested by, Roger Kendall, Investigator with the Texas
 Department of Criminal Justice – Office of the Inspector General, to conduct a search of my person. Said
 Investigator has requested the following sample(s):

<u>✓</u>	BLOOD	(Taken by medical personnel)
<u> </u>	SALIVA	(Taken by medical personnel) <u>RWK INVESTIGATOR KENDALL</u>
<u> </u>	HEAD HAIR	
<u> </u>	<u> </u>	CUT
<u> </u>	<u> </u>	COMBED
<u> </u>	<u> </u>	PLUCKED
<u> </u>	PUBIC HAIR	
<u> </u>	<u> </u>	CUT
<u> </u>	<u> </u>	COMBED
<u> </u>	<u> </u>	PLUCKED

The said Investigator has informed me of the following information:

 I do not have to give the above listed sample(s).
 He has not promised me anything, threatened me or coerced me in any way to give the
 above listed sample(s).
 I am giving the sample(s) voluntarily.
 I am a SUSPECT IN A CRIMINAL CASE. If I choose to refuse to consent to the
 search and seizing of the above listed sample(s), General Rules of Conduct, Executive
 Directive # PD-22 (Rev. 2) numbers 30 and 32 does not apply and I will not be
 disciplined for refusing to give my consent to a search. *This warning only applies in
 Criminal Cases and does not apply in any Administrative proceedings.*

I, Joe Gregg, do voluntarily give Roger Kendall (and others
 assisting) _____,

Investigator with the Texas Department of Criminal Justice – Office of the Inspector General, my consent to
 take the above listed sample(s).

SIGNED this the 18 day of JANUARY 2016.

REPORT OF INTERVIEW

Case #: 1600000656 Date of Interview: 1/18/2016
 Name of Person Interviewed: Offender Joe Gregg Identification #: 1877484
 Investigator: Timothy W. Burge *B*

On January 18, 2016, during an OIG interview, Investigator Kendall and I read Offender Gregg's Miranda Warning, he acknowledged he understood his rights, waived them and gave a verbal statement. Offender Gregg stated that he and Offender Rodgers play fought about three or four days earlier and he accidentally hit Offender Rodgers in the mouth causing a small cut on Offender Gregg's right hand between his second and third knuckles. Offender Gregg stated that he did not know if Offender Rodgers' head hit the wall or not, causing Offender Rodgers' head injuries. Offender Gregg further stated that Offender Rodgers would not get out of bed to eat or drink for the past five days or more. He said the last time he talked Offender Rodgers was last night around 8:00 PM, on January 17, 2016. He said Offender Rodgers told him in prior to January 17, 2016, about his bed sore and showed it to him, but he said Offender Rodgers refused to put in a medical call to receive treatment for the bed sore. Offender Gregg denied that Offender Rodgers ever approached him about sex and he told Offender Rodgers not to ever bring up them having sex. Offender Gregg stated that Offender Rodgers always took his medication. He said he would get upset that Offender Rodgers hardly ever took a shower and he would tell him to take one. Offender Gregg gave consent for us to obtain a buccal saliva swab for DNA analysis.

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I have not been promised anything, nor have I been forced or coerced in any way to give this statement, which is true and correct and voluntarily given.

At about 05:45 am I relieved officer Morrow at Northwest Texas Hospital. We escorted offender Alton Rodgers #1369028 to Nuclear Medicine and at 10:05 the nurse could not find a pulse, code was called and Cpr was started. I removed hand restraints where offender could be shocked if needed at 10:20 am they said offender had no pulse at 1045. AM offender was escorted back to his room B 210

STATEMENT OF Henry Box

GIVEN THIS DATE: 19th Jan AT 11:20 O'CLOCK ☒ AM ☐ PM

My name is: Henry Box

Date of birth: ■■■■ I can be contacted at telephone number: ()

and at address: Clements Unit

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I have not been promised anything, nor have I been forced or coerced in any way to give this statement, which is true and correct and voluntarily given.

I officer Henry Box 104 Relieved officer Palacios at 0545 AM on
the 19th at NWH Rm B210 I kept an accurate time sheet on
offender Alton Rogers # 1369028 until we went to Nuclear Medicine
at 0955 at 1005 at Nuclear Medicine the nurse could not find a
pulse and called the code. I then pushed the crash cart into
room where medical personal could reach it. They were giving CPR and
chest compressions. At 1020 they said they had no pulse and we escorted
offender back to Room B210 according to Nurse the doctor would
have to call time of death.

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I have not been promised anything, nor have I been forced or coerced in any way to give this statement, which is true and correct and voluntarily given.

1/18/16 I WAS
ASSIGN AS A SSI in High Security ECB.
I WAS in C-pod TALKING to inmate HUDSON in
C-pod 212. I WAS TOLD THAT - THAT WAS NOT THE FIRST
TIME INMATE GREGGS HAS JUMPED ON INMATE ROGERS. Inmate
HUDSON TOLD ME THE NITE BEFORE INMATE ROGERS WAS FOUND
UNCONSCIOUS in his CELL. HE INMATE HUDSON HEARD THRO
THE WALL ~~for~~ something being DRUGED UP AGAINST THE WALL.
HE INMATE HUDSON FELT LIKE GREGGS WAS DRUGING HIS
CELLIE HEAD AGAINST THE WALL. THE REASON INMATE HUDSON
DID NOT SAY ANYTHING to the OFFICERS WAS BECAUSE HE
DID NOT WANT to BE LOOKED AT AS A SWITCH.

Brad Livingston
Executive Director

Date: January 20, 2016

Subj: Alton Rodgers 1369028

Dear [REDACTED]

It is with the deepest sense of sadness and grief that I write this letter. I know that the sense of loss is far greater among you and the members of Alton's family. Our preliminary investigation into your Alton's death indicates that he was a homicide victim. The incident happened on January 18th. Alton was taken to the hospital and unfortunately passed away on January 19th at 1214 PM.

The funeral home which will receive the body of your loved one is Carnes Funeral Home near Houston. Their phone number (409) 986-9900 and as I stated to during our conversation you may contact the funeral home to arrange claiming his body. As is customary when an offender dies in the custody of this Agency, local and state officials will do an investigation in regard to his death.

At a time like this, it may be difficult to process the feelings we have. It is always a comfort to me when I grieve the loss of a loved one to acknowledge my faith in God, even in the midst of the sorrows through which we sometimes pass. One Scripture I use which helps me in my grief is from the Gospel of John, chapter 14: "Do not let your hearts be troubled. You believe in God; believe also in me. In my Father's house are many rooms; if it were not so, I would have told you. I am going there to prepare a place for you. And if I go and prepare a place for you, I will come back and take you to be with me, that where I am you may be also."

Alton experienced some difficulties in his journey in this life. It is our hope and prayer that he will find peace in the next.

On behalf of the entire Texas Department of Criminal Justice staff, I want to extend our deepest sympathies in the passing of Alton. May the Lord comfort you and all of his family and help you all in their great loss.

Sincerely,

A handwritten signature in cursive script, reading "Jerry Billington", is written over the printed name.

Reverend Jerry Billington
Chaplain I
William Clements Jr. Unit

Our mission is to provide public safety, promote positive change in offender behavior, reintegrate offenders into society, and assist victims of crime.

Log of Action

Rodgers, Alton L. 1369028

Tuesday January 19, 2016 – Chaplain Billington

- 0900 Warden Nash called to see if offender's mother (MO) [REDACTED] had returned call to Chaplain Bollacker from the message he left on Monday January 18th. Warden Nash also gave me (FA) [REDACTED]
- 0905 Called Chaplain Bollacker to ask him if he'd heard from MO. I left message for Chaplain Bollacker to call.
- 0915 Called Warden Nash and he informed me that he had talked to Warden Nash and MO had not returned call.
- 0915 Called MO and there was no answer. Called FA got message that the number was not able to take calls at this time.
- 1000 Called MO no answer left message to call unit. Called FA number again got a message that the number had been disconnect or was no longer in service. Called Warden Nash and he instructed me to contact Dallas County Deputy Sheriff for notification.
- 1015 Looked in Whitepages at the addresses listed on the Family Sheet PF10 for MO and FA. Mother was not at the address listed on her PF10 screen. FA address [REDACTED] was a match in the Whitepages.
- 1050 Called Dallas County Sheriff at 214-749-8641 to make notification. Address was in the Dallas city limits therefore the Dallas Police Department would need to make the notification. She gave the DPD phone number [REDACTED] [REDACTED] Called DPD with the information for FA [REDACTED] to call unit and ask for the Chaplain's department.

- 1145 Officer Farmer from DPD, badge number 8386, called. She informed me she went to address and FA did not live there. The current tenant had lived there for 2 years and does not know anyone by that name.
- 1150 Called Warden Nash to inform him of the events of 1050 and 1145. Warden Nash said that's all we could do for now. He would keep us informed if there were further developments.

Wednesday January 20, 2016

- 0820 Per conversation with Warden Beach asked me to call MO. Called [REDACTED]. No answer LM. Warden Beach look up his cousin [REDACTED] who was listed on his family page, and he is an offender at the [REDACTED]. He found the phone number of offender [REDACTED] (offender Rodgers Aunt-(AU)).
- 0905 called AU [REDACTED] there was no answer and I left a message. Then called an alternate number of [REDACTED] and reached [REDACTED] (UN) [REDACTED]. Asked [REDACTED] if he had a contact number for offender Rodgers mother. He said yes but he would have to call us back with the number.
- 0925 Offenders brother (BRO) [REDACTED] called. I informed him of the death. He asked what had happened and I informed him that his death was the result of a homicide. BRO asked questions as to what happened. I told him this was an ongoing investigation and details could not be released. He became argumentative and asked to speak to a Warden. I handed phone Warden Beach talked to BRO Warden talked briefly and then the call was disconnected. During call BRO gave me offenders MO phone number [REDACTED]
- 0930 BRO called back and talked to Warden Beach. He was argumentative with him also and Warden Beach then ended the call. Due to the fact that the BRO was argumentative BRO did not convey that the family would

Log of Action

Rogers, Alton #1369028

At approximately 1300 Hrs. This date I contacted the Bill Clements Unit by Telephone I spoke with central dispatch who informed me that Capt. Keesee wanted to speak to me. Capt. Keesee informed me that we have an inmate, Rogers at the Northwest Texas Hospital, that I needed to contact Security and they would escort me to the inmate. Upon arrival I spoke with Linda Morales at the reception desk who contacted security. The Sgt. on duty escorted me to a nuclear medison room where they were working with a subject wrapped in a sheet. He announced himself and asked if it was ok for the Chaplain to come in. There were three correctional officers there two at the door and one seated further in the room next to the bed. Officer Hall who was seated, I asked him if he had the inmates travel card. He stated his information is in that white bag on the counter. I found papers identifying the inmate as Alton Rodgers T.D.C.J. #1369028

After approximately one hour Hospital personnel determined Mr. Rodgers should be moved to a regular room.

14:39 hrs. Called Warden Nash on the Unit, He gave me two names of family members to contact [REDACTED] I called that number it is no longer in service.

[REDACTED] (mom) [REDACTED]

I called that number got the voice mail I left a message that her son Alton had been taken to the hospital would she please call me on my cell, I would give her more information.

14:45hrs. Called Warden Nash informed him I was unable to make contact with family members, left a message for Mother to call me back.

15:30 Hrs. Hospital personnel informed me Mr. Rodgers was now stable and his health was somewhat improved.

15:45 Hrs. Sgt. of Hospital security called the Unit spoke with Warden Nash about Mr. Rodgers' condition, I then spoke with Warden Nash he stated there was no reason for me to stay at the hospital that I could leave.

16:30 hrs. I left the hospital, no further action was taken by me.

Chaplain Bollacker

REPORT OF INTERVIEW

Case #: 1600000656 Date of Interview: 1/21/2016

Name of Person Interviewed: Offender Joe Greggs Identification #: 1877484

Investigator: Timothy W. Burge *B*

On January 21, 2016, during an OIG interview, Investigator Kendall and I re-read Offender Greggs his Miranda Warning, he acknowledged he understood his rights, waived them, and gave a verbal statement. He stated that he did know why he was being told he starved and had "Killed" his cell mate (Offender Rodgers). He said he did not think he "Killed" his cell mate and denied that he starved him. When we told Offender Greggs of Offender Rodgers' injuries that consisted of his skull being fractured, Offender Greggs stated that, the night before when Offender Rodgers was found unresponsive on January 18, 2016, he and Offender Rodgers had fought and Offender Rodgers had hit his head hard on the floor and he had to help Offender Rodgers up to his bed on the top bunk. He said that on January 14, 2016, they fought and picked Offender Rodgers up and slammed him and Offender Rodgers had hit his head on the floor hard. He said that was when he caused his hand injury hitting Offender Rodgers in the mouth. He said he stopped fighting because Offender Rodgers was hurt and could not get up. He said he had to help Offender Rodgers up and Offender Rodgers got onto his bunk. He said Offender Rodgers did not ask him to get him medical help. He said while they were fighting both times on January 14, and 17, 2016, he picked Offender Rodgers' body up in the air and slammed him making his head hit the concrete floor. Offender Greggs alleged that what made him fight Offender Rodgers on January 14, and 17, 2016, was that Offender Rodgers tried to come on to him sexually and he lost his temper, got mad, and pushed him against the wall. He said that was when he picked his body up and slammed him on the floor with his head hitting first. He said that after their fight on January 14, 2016, he helped Offender Rodgers on to his bunk, Offender Rodgers never came down from his bunk again. When questioned about their fight on January 17, 2016, Offender Greggs stated, "I'm guilty." Offender Greggs was re-questioned about the night of January 17, 2016, Offender Greggs stated Offender Rodgers came down off his bunk and took a swing at him and they fought again. He said he picked Offender Rodgers up and threw him down two times and when he tried to help him up to his bunk he slipped and the back of Offender Rodgers' head hit the wall. He said that he did get Offender Rodgers onto his bed, and Offender Rodgers tried to help him, but it was more on him (Offender Greggs), to get him up there. Offender Greggs said Offender Rodgers did not move after that. Offender Greggs said the reason he did not call for help for Offender Rodgers was because he knew he was going to get into trouble for what he did to him.

VOLUNTARY STATEMENT

STATEMENT OF

GIVEN THIS DATE: 11/22/2016 AT 9:10 O'CLOCK ☒ AM ☐ PMMy name is: Martha Mars

Date of birth: [REDACTED] I can be contacted at telephone number: [REDACTED]

and at address: Clements Unit

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I have not been promised anything, nor have I been forced or coerced in any way to give this statement, which is true and correct and voluntarily given.

On 11/19/2016, as the Safe Prison PREA manager, I Sgt. M. Mars looked at Offender Rodgers, Alton #1369028 and Offender Greggs, Joe #1877484 commissary spends, which resulted in identifying that Offender Rodgers had made a recent spend through commissary on 11/05/2016, therefore I called Ms. Teresa Carroll (Commissary Supervisor) if she could meet me at the High Security Commissary to retrieve the original receipts and lists of the transactions. We met up at 12 building gate where I also met up with Warden Beach and reported to him what I was doing. I proceeded to High Security Commissary and was able to locate original documents for spends 11/05/16, 11/18/15 and 10/13/15 belonging to Offender Rodgers, Alton.

(Continuation)

Voluntary Statement of: Martha Maes

I also gathered the original commissary documents for Offender Gregg, Joe 1877484 dated 11/18/15 and 10/08/15 in which were compared to the last store that was made for Offender Rodgers, ~~and~~ on 11/05/2016. It is my opinion that Offender Gregg wrote the list for Offender Rodgers. There is an actual thumb print on the original receipt but at this time it is unknown who the print belongs to. I immediately reported my findings to Warden Beach and Major Boggs. Then all the original documents were directly taken to OIG Mr. Richard Fernandez and turned in for evidence. I received a copy of this statement. M.M.

Warden Martin,

On 1/19/2016, I Sgt. M. Maes and as the Safe Prison PREA manager, I took it upon myself to look at Offender Rodgers, Alton Lamont #1369028 and Offender Greggs, Joe #1877484 commissary spends. I reviewed the spends and saw that offender Rodgers, Alton #1369028 had made a recent spend through commissary on 1/05/2015, therefore I called Ms. Teresa Carroll (Commissary Supervisor) if she could meet me at the High Security Commissary so I could gather the original commissary receipt and lists of the transactions. We met at 12 building gate where I also met up with Warden Beach and reported to him of what I was doing. I proceeded to High Security Commissary to retrieve the items. I was able to locate the commissary spends for 1/05/16, 11/18/15 and 10/13/15 belonging to offender Rodgers, Alton #1369028 and also gathered the commissary spends for Offender Greggs, Joe #1877484 dated 11/18/15 and I looked at some of the other ones. I compared the known writing of Offender Greggs to the last store that was made for offender Rodgers, and it is my opinion that Offender Greggs wrote the list for Offender Rodgers. There is an actual thumb print on the original receipt but it is unknown who's print is on it. I immediately reported my findings to Warden Beach and Major Boggs then all the original documents were directly taken to OIG Mr. Richard Fernandez and turned in for evidence.

This was at the end of the day at 1700 hour so I went home.
